

Electronic Prescribing at DelivMeds Virtual Pharmacy

To Our Valued Health Providers,

Providing your patients with the highest standard of care is what our pharmacy is all about.

If you're already e-prescribing, we can receive prescriptions you send electronically directly to our pharmacy management system via a secure connection to the Surescripts® electronic prescribing network. We also can send prescription renewal requests to you electronically, reducing the number of faxes and phone calls your staff needs to manage.

To help ensure a smooth transition to e-prescribing with our pharmacy, we encourage you to confirm that our pharmacy has been added to your practice directory of e-prescribing pharmacies to ensure that we can receive your prescriptions electronically. We can be found in the Surescripts network under NCPDP ID = 5744481

To find out more about these programs, and the benefits of e-prescribing we encourage you to visit www.surescripts.com.

Warm Regards,

The DelivMeds Team
